Making Offices Shine Since 1984!

100% Women-Owned Business

Are you proud to welcome clients to your office?

We spend most of our time at the office. Your staff and clients deserve a clean environment and productive atmosphere. For a small investment in a professional commercial cleaning company, you will see a big difference in the bottom line.

Our team at Gemini Janitorial Services can make your office shine!

Since 1984, Gemini Janitorial Services has been cleaning commercial offices in the Greater Delaware Valley. The real difference is our people! They are well-trained and pay attention to details. Each team has a manager who makes sure all your requests are completed.

We customize our cleaning program to fit your needs.

Each project begins with an on-site inspection to determine the best way to clean their office without interrupting business operations. We work around your schedule and create a checklist that insures that your expectations will be exceeded. Our on-site teams are supported by an experienced management team.

We are Celebrating 35 Years in Business!

Gemini Janitorial Services was founded by Janet Killian in 1984. The business world was a different place, especially for women business owners. Janet built her commercial cleaning business one team member at a time. She has a rigorous screening process that includes background checks on all employees. She has also built a strong management team that is capable of handling any situation.

The Gemini Janitorial Services team specializes in cleaning for a number of businesses, construction companies and apartment building owners/managers.

Gemini Janitorial Services works with a number of corporations. A list will be supplied upon request.

In addition to comprehensive commercial cleaning, we also offer the following special services:

- Construction Clean-up
- Carpet Cleaning
- Floor Maintenance (*strip, seal & wax*)
- Window Cleaning
- Furniture Moving
- Day Porter Services

The Gemini Janitorial Services "Multi-Tiered Inspection System" ensures the guarantee to exceed the expectations of our clients by following through with each job request and validating the services performed.

Give us a call today at (302) 654-5310 to schedule an appointment to explore the possibilities of adding the Gemini Janitorial Services cleaning experts to your team.
